Introducing Odine Solutions' new brand identity

Our professional profile has grown and evolved over the years, and now it is time for a change. We have altered our logo to reflect who we are today and to symbolize our dynamic future.

Basically, the new design of our logo is meant to improve the readability of the name Odine. Symbolically, the name Odine becomes bolder to create the impression of our trustworthy and audacious business manner.

Proud as we are of our rich history and deep roots, we retain the logo's core elements, the circle and the colors. The color turquoise stands for our reliability and strength, the lime reflects our agile solutions.

Deloitte Fast 50 Turkey

Odine Solutions is recognized as one of the 50 fastest-growing tech companies in Turkey by Deloitte Technology Fast 50!
